## SKILLS

- HTML
- CSS
- Javascript
- React
- Redux
- Node.js
- Enzyme
- Sinon.js
- Jest

## PROFILE

Systems and Computer Engineer from Pontifical Bolivarian University, working as a frontend developer for the last 2 years and a half. With experience in Javascript, HTML, CSS, React and Node.js.

Positive attitude of helping my colleagues and a willing to continuously grow professionally, that materializes in a constant exchange of ideas and knowledge within work teams. My goal is to collaborate on projects to continue training in the frontend area, delving into the basics of web development.

## EMPLOYMENT HISTORY

### Frontend Development Intern, Team International; Medellin – July 2019 - January 2020

After completing a training process with Team International in the Top Gun Lab program, I was chosen to intern at the company. During this period I was assigned responsibilities for:

- Front End software development
- Application maintenance
- Customer service

It was a period of professional and personal growth as this was my first professional experience.

### Front End Developer, Team International; Medellin – February 2020 - Present

Once the internship process was over, I was hired as a junior developer, and later middle, to continue with the project I started during the internship. At this stage I was assigned additional tasks of:

- Code review
- Complex development tasks
- Mentoring for interns
- Demo presentation for clients

### **Freelance Front End Developer, Team International; Medellin – February 2021 - March 2021**

During this period, I worked for a client that needed to improve the accessibility of a web application. From this experience I learned:

- Basics of accessibility in web pages
- ARIA attributes
- Some good development practices
